### Who Cares?

The image of the good shepherd is the image of a person who cares. He is not like the other, "who has no concern." He takes the time to get to know others, and he cares so much that he will even give his life for others.

We belong to a church populated by caring individuals who give their lives for others: priests and nuns martyred in El Salvador; missionaries struggling in the remotest parts of the world; peace activists challenging the consciences of nations; sisters caring lovingly for the sick and dying.

What would happen if all of us cared, really cared, about our brothers and sisters who are hungry, homeless, helpless, mistreated, victimized, suffering, unemployed, impoverished, threatened, rejected? What would happen if all of us became good shepherds and cared? Wouldn't the consequences be monumental if everyone in the Christian community became a good shepherd?

No one is permitted to disregard the plight of his brothers living in dire poverty, enmeshed in ignorance and tormented by insecurity. Pope Paul VI, *Populorum Progressio*, 1967:74 No one may claim the name Christian and be comfortable in the face of the hunger, homelessness, insecurity, and injustice found in this country and the world.

*U.S. Bishops, Economic Justice for All, 1986: #27 (p.6).*

**THE WISDOM OF THE ENNEAGRAM**  
**FOR BEGINNERS**

The Enneagram is an ancient wisdom tool that is over 4,500 years old, believed to come out of the Sufi tradition. Made up of a wheel of 9 personality types, it can enable us to get a deeper insight into how we see ourselves, others and the world in which we live. It has been tested through the centuries and has proven to be an incredible way to help us to grow on our personal and spiritual journey. Identifying our personality type can offer ways for us to see ourselves in a new way. This workshop is 2 sessions due to the nature and information necessary to understand the subject.

Attendance both weeks is necessary.

*In the journey to a mature faith it is not uncommon to go through periods of doubt. Often loss, following the death of a loved one, can precipitate a faltering faith. This book offers stories of true experiences about ordinary people who have had extraordinary experiences after the death of a loved one. What makes these stories important is the profound effect of each experience. Each person felt an overwhelming sense that death is not the end, that the deceased continue to exist in some form, apart from and beyond the body. Discussion and the opportunity for questions and sharing of one's own experiences, if you wish, will be included. It would be beneficial, though not required, to have read the book prior to attending.*
